

The Ocean County Utilities Authority

Helping to Preserve the Water Resources of Ocean and Southern Monmouth Counties in the State of New Jersey

OCUA Employee Recognition Award

May 22, 2008 – Danilo V. Aquino, an Engineering Technician/CAD Operator in the Engineering and Construction Department, has received the OCUA's Employee Recognition Award for his outstanding performance, dedication and initiative. The award was presented to Dan during the Authority's Public Meeting on May 22, 2008 by Chairman John Parker.

Dan joined the Authority almost twenty years ago as an Engineering Aide. In January 1990 he was promoted to the position of Engineering Technician and five years later Dan was promoted to his present position of Engineering Technician/CAD Operator. His extensive knowledge and experience has been extremely valuable to the Authority. Dan has been recognized for his extraordinary initiative and technical abilities in creating exceptional designs and graphics while at the same time minimizing the cost of accomplishing these projects.

The Ocean County Utilities Authority established an Employee Recognition Award Program in 1995. This program was designed to formally recognize Authority employees for their performance over and above what is normally expected. Since its inception, nineteen employees have been recognized for their dedication and initiative. In many cases their efforts have resulted in a significant cost-savings to the Authority or their outside community achievements have been of an outstanding nature.
